

TEST RESULTS

Test Results Date: August 3, 2020

Also Know As: Sani-Powder, ECA - 500, BN - 200, WaltzPro

EPA Reg. No. : 91138-1-52930

NOTE: The testing results represented in the below table correlate to certified GLP lab test results performed by Eco99 at various concentrations of HOCl, the active ingredient in Eco99. These lab results have been submitted to the EPA in conjunction with the EPA registration amendment application corresponding to CDX #: CDX_2020_007740. Any and all disinfection claims associated with these testing results are pending EPA approval. Until the EPA has approved the registration amendment application and associated claims, Eco99 will operate according to its current EPA label as a hard surface sanitizer.

Copies of the certified lab reports are available upon customer request.

ECO99 PATHOGEN EFFICACY REPORT 8/3/2020
